Hi Graham;
I'm looking at **Bigger Pockets** and in the email you sent yesterday the cost per episode is \$7,500.
On your last email today with only 4 podcasts the price per episode is \$1,900.
Can you double check rates per episode on all 4 podcasts and that they are gross, so I can send to client with my 15% commission included?

Thanks,
Javier Torres
Director Media Effective

Hi Javier,

Attached are a couple more viable podcast for NRIA.

These are all net costs to us so if you need me to gross up again, let me know and I can do that.
